Girl Is Freed After Trial In Mercy Slaying

Carol Ann Paight Is Acquitted In Slaying Of Father

STAMFORD, Conn., Feb. 8.—(INS)—Tearful, happy Carol Ann Paight returned home a free woman today to pick up the torn strands of normal life.

The blonde, 21-year-old college senior broke down and wept last night when a jury of parents, after deliberating four hours and 53 minutes, acquitted her of the mercy slaying of her cancer-stricken father on grounds of temporary insanity.

Cheers filled the Bridgeport courtroom when the verdict was delivered at 8:07 p. m. (EST) last night. Tears streamed down Carol Ann's face, and she turned to her mother and cried out, "Mommy."

The statuesque blonde embraced defense counsel David Goldstein crying, "I'm so happy! I'm so happy!" Her mother, Mrs. Mary Paight, sobbed and said, "I am so thankful. All of our prayers have been heard."

No Appeal Likely
Then Carol Ann was ordered freed by Superior Court Judge John A. Cornell. It was not believed that State Attorney Louis W. Willis, who refused to comment on the jury's verdict, would appeal the verdict under the unusual Connecticut law which allows either side to press its case in higher courts.

Carol is expected to return shortly to New England College at Haverhill, N. H., where she was completing a four-year laboratory technician's course in three years.

May Soon Be Married
Mrs. Paight hinted that the girl may soon be married to a fellow student, Robert Anderson, 23. She said she hoped Carol Ann "will finish school first."

In the crowded courtroom, about 150 spectators cheered and applauded when Mrs. Judith A. Menn (Continued on Page Two)

Urge Federal Union Of Atlantic Democracies

WASHINGTON, Feb. 8.—(INS)—Dr. Harold C. Urey, the noted atomic scientist, warned today that the hydrogen bomb has made impossible truly independent governments.

Urey was one of a series of witnesses who appeared before a senate foreign relations subcommittee to urge the establishment of a federal union of Atlantic democracies. Former Supreme Court Justice Owen J. Roberts declared that the Kremlin dictatorship is "turning Germany into a powder-keg capable of exploding into World War III."

Roberts said that unless exploration of an Atlantic union is begun now, the "hydrogen bomb may have wiped out the time" needed for its establishment.

Clearly Referred To It
Urey did not mention the dreaded hydrogen bomb by name but clearly referred to it. He reviewed briefly the technological advances in weapons. He said that "there seems to be no sight of a leveling off of this technical development." The atomic scientist continued:

"As new weapons develop having longer range, it is necessary that the governmental units must be larger in scope. It is not possible to maintain truly independent governments and states when the range of weapons becomes large as compared with the geographical dimensions of those countries."

Urey argued that failure to call a convention to explore an Atlantic union may result in intense discouragement to western Europe. He testified:

"The threat of atomic bombs, infiltration within, sabotage and a feeling of utter hopelessness are our enemies in Europe."

He warned that Europe may reach its "endurance point." He said that if it is lost to the free world, the United States may find itself isolated.

Bidault Has New Cabinet
PARIS, Feb. 8.—(INS)—Premier Georges Bidault won a lukewarm confidence vote from the French national assembly today for his new cabinet, with almost one-third of the deputies abstaining.

The French resistance hero's government of centrist parties received 230 votes. The Communist bloc supplied 186 votes against Bidault, and there were an alarming 196 not voting.

Among those not voting were 96 socialist deputies whose ministers resigned en masse from Bidault's "third force" coalition cabinet last week to precipitate the crisis. The socialists withdrew and withheld their vote in protest against the premier's refusal to approve increased bonuses for low-salaried workers.

However, it is unlikely they will openly oppose Bidault's cabinet. In the event of a showdown on his survival, they may even rally to his support.

Cold Wave Grips Hard Coal Area
SCRANTON, Pa., Feb. 8.—(INS)—A cold wave gripping the anthracite region today resulted in demands on a coal supply that already has reached a new low.

The ten below zero weather at Fleetville and nearby communities sent floods of calls to coal dealers who are trying their best to serve customers with their meager stocks.

The mines reported the stock pile at low ebb due to the miners' three day work week. The temperature in Scranton sunk to six above zero—the coldest of the year.

Search Plane With 12 Aboard Being Hunted

Plane In Hunt For Missing Airliner Is Lost In Yukon

WHITEHORSE, Y. T., March 8.—(INS)—An American search plane with 12 men aboard apparently was lost today in the icy wastes of the Yukon in the hunt for a missing U. S. C-54 and its 44 passengers.

The search plane, a C-47, left Whitehorse headquarters yesterday morning and reported only once by radio. Other planes were sent up to scan a 900 square mile area but failed to sight the lost craft.

Persistent SOS radio signals were heard at Whitehorse after the C-47 was reported overdue, but the source of the distress calls was not determined.

The C-54 transport vanished Jan. 26 on a flight from Alaska to El Paso, Tex. No trace of it has been found.

The missing search plane was an American craft manned by personnel from both the U. S. Air Force and the Royal Canadian Air Force.

Commodore Martin Costello, search co-ordinator, said that the sub-zero weather threatened to limit the hunt for both planes.

The C-47 was scheduled to search the area south of Aishihik, about 100 miles north of Whitehorse. Snow was reported falling in that region, with the temperature hitting 22 below zero.

Proposes U.S. Naval Force Go To Indo-China

By KINGSBURY SMITH
(European General Manager, I. N. S.)

PARIS, Feb. 8.—(INS)—Former French Premier Paul Reynaud proposed today that a United States naval task force be sent on a visit to French Indo-China as a warning to Russia.

He said that unless the Truman doctrine which was applied in Greece and Turkey to check the spread of Soviet expansion in the Balkans is now applied to Pacific Asia will be lost.

Reynaud, who plans to visit the United States early next month, thinks that Soviet recognition of the Ho Chi-Min rebel regime in Indo-China is a serious threat.

F.B.I. Chief Hoover To Get More Agents For Fuchs Case

By FRANK B. ALLEN
(I. N. S. Staff Correspondent)

WASHINGTON, Feb. 8.—F.B.I. Chief J. Edgar Hoover is virtually assured today of additional agents to unravel the far-flung "Klaus Fuchs" case and reinforce hydrogen bomb secrecy.

As the Federal Bureau of Investigation pressed its probe of the alleged Communist spy's American and Canadian contacts, a Senate appropriation subcommittee assured Hoover of support for his request for 524 more agents.

Disclose Further Spying?
At the same time, Sen. Hickenlooper (R) Ia., former capitol hill atomic chairman, said he "will not be greatly surprised" if further atomic spying is disclosed. Hickenlooper said he "was not greatly surprised" by the Fuchs case.

Sen. Jenner (R) Ind., called for Senate acceptance of the judiciary committee's amendment to tighten the screening of displaced persons entering United States.

Declaring that America's doors are wide open to spies, Jenner declared that "we can at least close one of them." He added:

"If Russia wants to get a spy into the United States, the record of DP screening in Europe shows that the DP program has been offering a simple, easy way."

The FBI chief reportedly told the appropriations group in a closed-door session that the Fuchs case is linked, through the Communist scientists' contacts, with the Canadian spy ring exposed in 1946.

U.M.W. Head Interrupts Spokesman For Operators To Hurl Charge Of 'Liar'

Fact-Finding Board Warns 'Recriminations' Not To Be Permitted By Either Side; Radical New Hearing Procedure Is Adopted

By PHILLIPS J. PECK
(International News Service Staff Correspondent)

WASHINGTON, Feb. 8.—John L. Lewis accused the chief spokesman for the mine owners today of telling "a dirty, deliberate, infamous lie." Lewis made the charge at the opening of the Presidential fact-finding hearing on the soft coal strike.

The United Mine Workers president interrupted the hearing to hurl his charge at George H. Love, of Pittsburgh, despite a warning from the board that it would not permit "recriminations" from either side.

Love was reciting details of a coal peace conference last October in the office of Federal Mediation Director Cyrus S. Ching when the glowering Lewis rose slowly to his feet and made his accusation.

The Pittsburgh coal operator quoted Lewis as telling Ching the operators have the mines but they can't operate them without men and "I hold the men in the palm of my hand."

Lewis interrupted: "That's a dirty, deliberate, infamous lie. I say it to you, George Love, right now."

"I said I represented the men and you have the mines. You're a liar by the clock."

Board Chairman David L. Cole, of Paterson, N. J., interrupted the union chief to say:

"Mr. Lewis, let's not have these interruptions." Lewis replied: "Why not, why not?"

The UMW president sat down, however, as Love resumed his testimony.

New Procedure
The three-man fact-finding board adopted a unique procedure today and asked management and union representatives to "debate" the facts of the eight months old coal contract battle instead of following the usual practice of submitting long, formal statements.

Cole and his colleagues, economists W. Willard Wirtz and John Dunlop, fired questions at Love and Lewis to determine the reasons behind last week's breakdown in coal wage negotiations.

Love said it was the position of the operators in the 1949 negotiations that the "willing and able" to work clause should be eliminated, although they were willing to enter into certain stipulations that would take its place.

He said the clause was first inserted in the 1947 contract on the assumption that it would be used as a safeguard for the union against what he called "irresponsible operators." Love added:

"It was pretty much like a man getting a pistol to protect himself. But when it develops that the pistol is being used for illegal purposes (Continued on Page Two)

Two In Germany Assert Fuchs Is Communist

By RICHARD S. WEIL
(I. N. S. Staff Correspondent)

BERLIN, Feb. 8.—A Berlin preacher and a Hamburg journalist gave added weight today to the contention that Dr. Klaus Fuchs, accused atomic spy, is an avowed Communist of long standing.

Arthur Rackwitz, an evangelical minister known as "The Red Preacher of Berlin," said of the 38-year old German-born British scientist:

"I have always wondered how such a zealous Communist as Dr. Fuchs could suddenly start helping the United States and Britain build atom bombs."

Another German newspaperman Dr. Curt Bley, said in Hamburg that he attempted to mention Fuchs' Communist party membership in an article for the newspaper Die Welt, but that the British suppressed the reference. These statements supported fully the disclosure of Fuchs' Communist background by the physicist's father, Prof. Emil Fuchs, to International News Service on Sunday.

New Effort On Coal Contract Is Scheduled

WASHINGTON, Feb. 8.—John L. Lewis and soft coal operators agreed today to make a new try at writing a strike-settling new soft coal wage contract under the guidance of President Truman's fact-finding board.

The United Mine Workers president will meet with northern and western operators and U. S. Steel's "captives" mine interests at 2 p. m. (EST) in the Statler hotel.

At the same hour, Lewis' aides will confer with the southern Coal Producers Association in the Mayflower hotel.

Cutbacks To Be Forced By Coal Strike

PITTSBURGH, Feb. 8.—(INS)—Coal consumers, industrial and domestic, applied emergency measures today to postpone exhaustion of their dwindling stockpiles in the continuing 13-state strike of 350,000 miners.

Available inventories of coal were estimated at less than two weeks' needs. Because much of it was poorly distributed, many areas face critical shortages even sooner.

Widespread cutbacks were instituted by railroads, utilities and other industries. And further curtailments and layoffs will become (Continued on Page Two)

City painters have been taking advantage of the mild weather of the past few weeks and have been engaged in painting the standards on the various traffic signs in the downtown section of the city. The posts on the signs have been painted silver.

Residents of the East Side section of the city are being relieved of their winters collection of tin cans this week. City workmen were engaged in the task of removing the cans to the city dump. Ash piles this winter seemingly are smaller than usual due to the smaller amount of coal being burned during the mild weather.

Movement of much excavating machinery through the city indicates that building work is getting into full swing by local and district contractors. Several large bulldozers and other containers have been moved over city streets in the past week or so.

Broken glass is noted in some residential sections of the city especially along curbs where motorists could easily pick it up with their tires. The glass from broken milk bottles and other containers is swept to the curb side instead of being put in trash cans. Children also could get severe gashes from the jagged glass.

City squirrel population has become quite active over the past few days. The furry animals are to be seen scampering over residential porches begging for nuts and other goodies. Some of the animals are not too careful as they cross the street and motorists have to stop suddenly to avoid hitting them.

UMW HEAD INTERRUPTS SPOKESMAN TO HURL CHARGE OF 'LIAR'

posers, we think the permit should be revoked."

Unable To Find Out
Love told the board that the operators had been unable to find out exactly "what bid would be accepted" by Lewis. He added:

"We don't know whether that's bargaining in good faith or not."

The operator's spokesman said with respect to the UMW Welfare and Retirement fund that the industry still feels payments should be confined to employees of those companies which make payments to the fund. He added:

"We still feel that if the funds were not scattered around haphazardly... there would be no need to increase the amount of payments."

Cole asked Love whether, as a top negotiator, he could say whether "real collective bargaining" took place in the recent wage talks. Love replied:

"I think there were road blocks set in our way by the union."

The panel opened hearings on the coal strike today but a federal court decision may be the key to unlock the long contract deadlock between John L. Lewis and the operators.

The three-man board of inquiry summoned the United Mine Workers representatives and industry negotiators to testify before it this morning. The board plans to close its study tomorrow and will try to submit its report to the White House this week-end.

President Truman must await the panel's findings before he can direct Attorney General McGrath to seek a court injunction to return the 400,000 striking soft coal miners to work for 80 days.

David L. Cole, Paterson (N. J.) lawyer and chairman of the board, said the fact-finders, who are not required to conduct a "full-dress investigation" and make recommendations for settlement of the mine wage dispute, will try to beat the President's deadline by a report by Monday.

The board is meeting under a set of circumstances greatly comparable to a 1948 coal dispute when a fact-finding panel got the parties back into negotiations which resulted in a new contract and made an anti-strike injunction unnecessary. Cole also was chairman of the 1948 board.

northern and southern talks so that no one member will spend all his time in the same meeting.

Panel Chairman David L. Cole of Paterson, N. J., said he would report the results of the negotiations to newsmen at 8 o'clock tonight.

Joseph E. Moody, president of the southern group, said his talks with the union might have to be "exploratory and preliminary" because the SCPA bargaining committee is not all in Washington.

Cole said the fact-finding board's sessions, which are preliminary to a possible federal court injunction to return the 400,000 striking miners to work for 80 days, will resume at 10 a. m. EST tomorrow unless the parties request more time.

Six More Speeders Arrested Here

City police are continuing to arrest motorists for traffic violations, six more speeders having been arrested yesterday, in addition to which 50 motor cars were tagged for violating parking regulations.

Since last Saturday 25 motorists have been arrested for speeding, and 306 motorists have received tags for parking violations.

Several of the 25 motorists arrested for speeding failed to appear at police headquarters, hence Chief of Police Robert D. Hanna has sworn out warrants before aldermen charging them with speeding.

When motorists plead guilty at police headquarters they pay a fine of \$10. Upon conviction before an alderman, the latter's costs are tacked to a \$10 fine.

When You Attend A Funeral...

People are paying more attention to the kind of service given by funeral directors. They have come to realize that, on all but the more expensive funerals, it is the service that accounts for the greater part of the cost.

It is well to know this and be observing. Then, when occasion demands, employ a funeral director who can properly serve you.

Man On Trial For Officer's Death

NORRISTOWN, Pa., Feb. 8.—(INS)—A letter containing the words "I killed a policeman" was included today in the evidence the state has introduced at the trial of Ollie M. Carey for the murder of an Abington township policeman.

District Attorney J. Stroud Weber contended in court yesterday that Carey penned the words to Mrs. Marion Veney, whom he visited in Tidewater, Va., after the slaying.

Carey is accused of the fatal shooting of Patrolman Thomas Mathews. Mathews, according to testimony of other police officers, gave chase to Carey when the latter broke away during questioning about a burglary.

Await Decision On Ohio Turnpike

COLUMBUS, O., Feb. 8.—A proposed Northern Ohio turnpike probably will meet Pennsylvania's turnpike "slightly north" of Petersburg in Mahoning County, State Highway Director T. J. Kauer said today.

Kauer told the Ohio Turnpike Commission that Pennsylvania officials want a decision by March 1 on the exact location of the eastern end of the Ohio turnpike.

The commission authorized Kauer to meet with Pennsylvania officials to pin-point the juncture of the two roads.

Pennsylvania has laid down a tentative route for the westward extension of its turnpike that will travel along a valley towards the Ohio boundary, Kauer said.

Try And Stop Me

By BENNETT CERF

Judge Medina, who handled the Communist trial so brilliantly once was confronted by a witness who insisted on answering his attorney in a low voice, and ignoring the jury entirely. The judge finally pounded his gavel and ordered, "Speak to the jury, young man." The witness turned to the jury box and murmured affably, "Howdy". The judge was too amused to reprove him.

When Will Rogers made his sensationally successful debut in the Ziegfeld Follies, Ziggy took it upon himself to give the drawing Oklahoma a course in table manners. "There's a proper way to do everything, Will," he instructed. "Take imbibing soup, for example. Always tip the plate away from you. That's etiquette." "Etiquette my eye," said Rogers. "That's protection."

The Holeproof Hosiery company has thousands of letters from satisfied customers but one it cherishes more highly than most comes from Goller "Chuck" Evans. "A half hour after donning a pair of your socks," he testified, "I got a hole in one."

Carpet Is Laid In Court Room

Room About Ready For Trial Service

Carpet has been laid inside the rail of court room number two in the Lawrence county court-house, and with a few adjustments on the fluorescent lights the room will be ready for Judge John G. Lanoree.

The improvements have been under way for weeks but now they are completed, the court room presents a pleasing appearance. The carpet is a rich dark green, based with rubber. Walking across it one's feet sink into the carpet.

The corridor leading from the law library to the court room has been painted a shade of light green, the wood work in the court room has been varnished and the spring cleaning job is about done.

Around Hollywood

By FRANK NEILL
(International News Service Staff Correspondent)

HOLLYWOOD, Feb. 8.—Betty Grable, who ought to know, claims that there's nothing glamorous about Betty Grable.

The platinum blonde star declared: "I'm just healthy, and apparently it shows."

Betty reports she has an almost inexhaustible supply of zip and push, and at the moment is parading her energies in 20th Century-Fox's modern-day musical, "My Blue Heaven."

Director Henry Koster won't make a complete concession about Betty's self-proclaimed lack of glamor. He will go part of the way, however.

None Healthier

He'll put in with his star about her rare good health—especially as it pertains to soundness of limb and body.

"Ain't none healthier in those departments," he relates, slighting his grammar in his zeal.

Betty raps thrice on wood when she reports that she can't even remember when she was last ill. The only time she has ever delayed production on a picture came after a mishap in which she sprained a leg. For one thing, Betty is the resolute sort of creature who won't give in to such assorted symptoms as headaches or high temperatures.

It is indeed a rare occasion when she takes medication of any type, preferring to weather through minor irritations as if they didn't exist.

"I'm a great believer in letting nature take its course," she says.

Former U.S. Official Loses His Appeal

PHILADELPHIA, Feb. 8.—(INS)—Former U. S. Commissioner Norman J. Griffin has lost his appeal to the U. S. supreme court from his conviction on passport fraud charges.

The high court yesterday refused his petition for a writ of certiorari, thereby refusing to review his conviction.

Griffin was sentenced to 18 months in Lewisburg penitentiary in January, 1949. He was charged with accepting money for granting false affidavits on which some 300 Chinese obtained passports.

May Seek Higher Philadelphia Fares

PHILADELPHIA, Feb. 8.—The executive committee of the Philadelphia Transportation Co. has approved a recommendation to ask increased transit fares in the Quaker City.

PTC President Charles E. Ebert recommended that the company ask the Public Utility Commission to raise fares from a straight 10 cents to two-for-25 cents on all trolleys, subway and elevated lines and buses.

Plan Psychiatric Institute Erection In Eastern Penna.

HARRISBURG, Feb. 8.—(INS)—Construction of the Eastern State Psychiatric Institute under a \$9,000,000 appropriation was sanctioned Tuesday by the general state authority.

Originally estimates for the proposed Philadelphia hospital ran around \$5,000,000.

The GSA said the institute will be an "ultra modern research center into the causes and treatment of mental illness."

Triple-A construction priority was given the institute by the GSA board headed by Gov. James H. Duff. He said it will be the Keystone of a multimillion dollar mental hospital program.

The institute, to be located on a 19-acre tract on the outskirts of Northwest Philadelphia, will be administered by the boards of trustees of the five major medical schools in the city.

Charges Highways No Safer Than Quarter Century Ago

By SAMUEL GAMBURG

PHILADELPHIA, Feb. 8.—One of the nation's top highway experts charged today that at least 90 per cent of U. S. highways are no safer today than they were a quarter of a century ago.

"There has been enough talk on the subject," declared Robert A. Mitchell, Philadelphia traffic engineering chief, "immediate action is imperative."

The traffic chief cited to International News Service the nationwide predominance of two-lane highways, dangerous grade intersections and the lack of control over abutting property.

What's needed, Mitchell said, is more taxes to pay for new highway construction. A congressional committee set a 41 billion dollar figure to meet U. S. highway needs, he said.

Mitchell recommended construction of grade-separated highways as the best method for "real and permanent relief."

Should Include Belt Lines
Such a system, he explained, should include belt-lines to permit large flows of through-traffic to bypass congested cities.

He called further for the building of "in-city" expressways to allow traffic to move freely to the heart of a city and to relieve local traffic congestion.

To help remove local congestion, Mitchell recommended that individual cities be permitted to retain taxes collected from resident motorists. He put it this way:

"The state collects the taxes but only a small portion is returned to the city. Under the current set-up it would appear that it is the state government's problem to build vitally-needed highways."

He decried the amount of money spent on construction and maintenance of minor highways, claiming "they have little bearing on major traffic problems."

Forty-one per cent of Pennsylvania's roads are under the jurisdiction of the State Highway Department," he pointed out, "yet probably 80 per cent of the traffic moves on less than five per cent of the state's roads."

Situation Unbalanced
"What makes the situation even more unbalanced," he complained, "is that the lion's share of the money for state highways comes from urban areas."

Mitchell said that although most highway mileage is channeled up on so-called "feeder" roads, present income prevents highway departments from maintaining the feeders and the major highways at top efficiency simultaneously.

He listed these alternatives:

1. County responsibility for feeder roads.
2. A toll system on major highways.
3. Additional taxes to build all type roads.

"The third method appears to be the only feasible one," he said. "A

congressional committee thinks the cost will be 41 billion dollars. "That is a sizeable sum, but it is a good investment when you consider the money saved through the reduction of accidents and the elimination of congestion."

State Banks Hold Over Five Billion Resources Now

HARRISBURG, Feb. 8.—(INS)—Pennsylvania's state banks today hold total resources in excess of five billion dollars for the first time since 1945.

In a statement of condition of 353 state banking institutions as of December 31, 1949, state banking secretary D. Emmert Brumbaugh said depositors' funds increased \$141,019,096 since December 31, 1948.

Loans and discounts of \$1,217,397 reflect a \$62,233,849 increase over December 31, 1948, and a \$110,086,198 boost raised total investments to \$3,020,709,500 in the same period, he added.

U. S. government obligations totalling \$2,220,573,386 are included in total investments, Brumbaugh said.

Adopts Irish Baby After 4-Year Effort

BOSTON, Feb. 8.—(INS)—Four years of trying to adopt a baby were rewarded Tuesday for Mrs. Mildred Delaney of Dorchester.

With arrival at Boston's Logan International Airport of a ten-month-old orphan from Ireland.

The infant, known only as "Joseph," was carried—sound asleep—from an American overseas airliner by a stewardess, while Mrs. Delaney, wife of an air force master sergeant stationed at Bermuda, paced outside the customs barrier.

Know Very Little
Before "Joseph" was turned over to her, Mrs. Delaney declared: "We don't know much about him, just his name, Joseph, his age and the fact that he's Irish. We've never seen a snapshot of him."

The father-to-be, M. Sgt. Edward J. Delaney, stationed at Kindley Field, Bermuda, is due in Boston tomorrow to meet his new son.

The Delaneys have been married four years. They are childless and efforts to adopt a child in the United States were balked, Mrs. Delaney said, "by red tape."

Wrote to Church
Mrs. Delaney, living with her husband at his base in Bermuda, took her problem to a chaplain there, and he suggested that she write to the heads of the church in Ireland. She did, to 17 bishops and archbishops, and three weeks

ago an orphanage in Dublin wrote to her about Joseph. Would she adopt him, sight unseen? She would, and Tuesday he came.

Valley Forge Site Proposed For U.S. Air Force Academy

PHILADELPHIA, Feb. 8.—(INS)—The Valley Forge area may become the site for the proposed U. S. Air Force academy.

The 9,000 acre region is being considered with locations in 34 states by a board chairmanned by Gen. Carl Spatz, former air force chief of staff.

The Valley Forge area was recently proposed to the air force for

recommendation by the Philadelphia Chamber of Commerce.

Of 195 communities offering locations, Erie is the only other Pennsylvania city which has put in a bid for the academy.

Before the sites are considered they must undergo a rigid examination by the air force. The Air Force Academy Site Selection board then will inspect the most promising and select one for recommendation to the secretaries of air force and defense.

Final sanction, however, will come from Congress which has not yet authorized the academy.

Radio Commentator's Condition Serious

PITTSBURGH, Feb. 8.—(INS)—Pittsburgh hospital authorities described as "still serious" today the condition of Cleda Jones, 30-year-old radio commentator who apparently was injured by a Pennsylvania Railroad passenger train.

Her mangled body was found between the rails of the East

Liberty station track Monday evening. She has been in a coma most of the time since then.

Miss Jones, who broadcasts shopping tips to Pittsburghers under the name of Nancy Dixon, suffered loss of the right leg, below the knee, a skull fracture and injuries of both the right hand and foot.

Surveys show that school-trained teen-age drivers' accident rate is 50 per cent lower than the rate for those who "just learned" to drive.

Who Will Collapse First?

WASHINGTON, Feb. 8.—(INS)—Wanna make book on which will collapse first: The Veep, his bride or Washington's big, economy-sized, all-purpose society?

Vice-President and Mrs. Barkley have been married almost three months, but there is no sign of any let-up in the number of parties being given in their honor, morning, noon and night. The upper crust is winded, and gasping in short pants (with white tie, preferably).

Veep Crack First?
In the beginning the betting element here was inclined to believe the 71-year-old Veep would crack first. When some of his worried friends last week prevailed upon him to quit the Senate one afternoon and go home for a spot of rest, it seemed to confirm this dim viewpoint.

However, Mrs. Barkley currently is the odds-on favorite to toss in the towel. But I dunno. I wouldn't be a mite surprised now if Washington's 400,000 don't buckle first. Keeping up with the Barkleys calls for steam and stamina. Both Democrats, Republicans and Mugwumps apparently have formed a united front to keep the Barkley parties rolling.

But the pace is beginning to tell. At the big dinner-dance given the other evening by Mr. and Mrs. Morris Cafritz in honor of the Veep and his bride, I thought a good many of the big-shot politicians and diplomats who have been on the Barkley merry-go-round looked as tired as Mrs. Barkley. And she looked tired enough to drop. The Veep looked just dandy following the afternoon nap.

But despite her pallor and the circles under her eyes, Mrs. Barkley stood in the receiving line saying just the right thing to every guest who moved in to shake the hand that shook the hand of...

Has Phenomenal Memory
Jane Barkley may not yet have mastered the art of shaking 3,000 hands daily and still looking fresh as a daisy at the end of the day. But she has caught the politician's trick of the soft answer and she has a phenomenal memory.

When I went through the line, this remarkable woman beamed upon me and said it was nice to see me again.

In view of the fact that she had never laid eyes on me but once before and that two weeks previously for a split second as I went down the line at yet another Barkley party for at least 2,500 guests, I felt this must be a lucky shot in the dark. Or that since her marriage, Mrs. Barkley figures she has shaken hands at least once with everyone in the world.

When I asked her which of the two gambits was correct, she floored me by saying:
"But I really do remember you. Last time you wore a pink hat."
(Give the lady in the receiving line twenty silver dollars!)

Has Added 20 Pounds
There is more of Mrs. Barkley now than when she came to Washington immediately after her marriage. Three months of party food at a never-ending succession of luncheons, teas, dinners and suppers have added twenty pounds to her chassis.

This, naturally, is much more worrisome to any womanly woman than circles under the eyes or social shell shock. And Mrs. Bark-

Security Commission Seeks Power Increase

WASHINGTON, Feb. 8.—(INS)—Securities and Exchange Commission Chairman Harry McDonald Tuesday asked Congress for regulatory powers over 1,800 additional corporations with securities of about \$19,000,000,000.

McDonald made the request in testimony before the Senate Banking subcommittee considering legislation to extend the SEC's powers to all companies having more than three million dollars in assets or 300 security holders.

The legislation, introduced by Sen. Frear (D) Del., was endorsed by President Truman Monday in letters to House Speaker Rayburn (D) Tex., and Vice President Barkley.

McDonald asserted that present federal securities regulations discriminate between companies "without reasonable basis." He asserted that the bill would "get rid of that discrimination and put both the companies and investors on the same basis."

The governor of the Tower of London recently appealed for aid to protect the ancient fortress in an invasion by a horde of wild house cats which have been living in London's bombed buildings.

Westinghouse Corp., which made the announcement, will build the vessel. The ferry will make its short run between the cities of Chester and Bridgeport.

Hudson Ferry To Be Radar-Guided

CHESTER, Pa., Feb. 8.—(INS)—Fulton's "Clermont" up the Hudson will have nothing on Chester's "Cape May" up the Delaware.

For cruising down the river soon, the "Cape May" will be the Delaware's first radar-guided ferry.

Westinghouse Corp., which made the announcement, will build the vessel. The ferry will make its short run between the cities of Chester and Bridgeport.

Hon. Cavalry Gets Boost From Police

WASHINGTON, Feb. 8.—(INS)—Thousands of retired (horse) cavalry officers hung today on the words of a spokesman for the Washington Park police.

The spokesman, praising the mounted patrol of Rock Creek and Fort DuPont Parks, said:

"The system works quite efficiently. The horses can penetrate

little-known byways and paths that would be impossible for a motor-cycle."

The cavalry officers offered a hearty amen. That they said is what they have been trying to tell the

Scout Leaders To Be Honored

Meeting Friday To Hear Mercedes Urda

Friday evening, February 10, has been selected as the date for a tea honoring all leaders and committee women of the Girl Scouts of the New Castle area.

Board members wish to show their appreciation of the great service this group of adult scouts is rendering to girls of this community.

The Juliette Low committee of the council is in charge of arrangements assisted by the entire board. Mrs. Louis Colter, chairman, with Mrs. Ethel Renz, Mrs. C. M. Boelter, Mrs. Ann Cubellis, and Mrs. Minerva Rape, have secured a speaker who will be but one of the pleasant features of the evening's entertainment, when the membership gathers at First Methodist church, Jefferson street at North street, at eight o'clock Friday.

Founder Of Scouting
Juliette Low was the founder of scouting. This committee seeks to interpret the story of her life and keep it ever green in the minds of all people interested in this youth movement. The living memorial to Juliette Low is the Juliette Low World Friendship fund. One use made of this fund is to send outstanding scouts to our own International Chalet in Odelboden, Switzerland.

Miss Mercedes Urda, speaker of the evening, was one of the fifteen American girls chosen last year to be sent to Europe. The selections were based on service in scouting and abilities. These girls had to speak at least one foreign language among other qualifications.

Miss Urda is a graduate of Mary Burnham School for Girls in Northampton, Mass. She will be graduated from Pittsburgh College for Women, Pittsburgh, in June. Miss Urda has been a scout for twelve years.

Miss Urda was stationed in a Girl Guide camp in the Netherlands during her trip to Europe. From there she visited camps in Italy, France, and England. A high spot of her experience was her stay at the International "Chalet," where she met and lived with girls from any different countries. She brings the International program right to her audience through stories, pictures, slides and songs.

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

Out of the Mouths of Babies

I doubt that I'll ever forget a conversation I overheard between two five-year-olds in the early days of World War II.

King and Barbara were chatting together. King was a little Chinese boy; Barbara, the daughter of very liberal-minded parents, "Japanese," said King, "are bad." "That's not right, King," said Barbara. "Some Japanese are bad and some are good. Some English are bad and some are good. Some Americans are bad and some are good. Some Chinese are bad—"

But this was too much for King. Vehemently, he disagreed. "No Chinese are bad!"

But Barbara persisted. "Some Chinese are good, but some Chinese are bad."

It wasn't at all certain that King was convinced of any of Barbara's conclusions, but one adult, at least, was much impressed by her wisdom. At that time it was so easy to feel that certain peoples were entirely cruel, bloodthirsty and otherwise inhuman.

Often children cut through to the heart of a matter in a way that is hard for adults, packed as they are likely to be with prejudices, half-baked ideas and all sorts of other misconceptions. The simplicity of children thinking at times highlights truths that experience has belatedly for grown-ups.

Catholic Veterans Distributes Forms

Welfare officer, Orland Calazza, of New Castle Catholic War Veterans announced that four different benefit forms are now available for any G.I.

The prisoner of war benefit form is available as also the P.O.W. survivors by deceased form; parents certificates of dependency; and the report of loss or damage to real and personal property arising out of World War II.

Any veteran desiring one of these forms make do so by contacting the welfare officer or the Commander Edward DeCarbo of the Post.

The Catholic Veterans are also the sole distributor in the United States of souvenirs maps and booklets of saints and sanctuaries shrines in Italy, which will be toured during this Holy Year. They are available to all.

Acid Sprayer Threat To Life In Atlanta
ATLANTA, Feb. 8.—(INS)—A psychologist has warned that the acid sprayer who has terrorized Atlanta women for nearly a week may turn to killing if he is not arrested soon.

Herman W. Martin, professor of abnormal psychology at Atlanta's Emory university, said the man probably is a "frustrated Romeo" who needs psychiatric treatment.

Meanwhile, another woman—the 10th since last Thursday—reported that the man had sprayed acid on her skirt as she passed him on a street. Mrs. W. E. Berry, of Marietta, Ga., said her skirt was ruined by the acid.

New Defenses For Atom Plants

WASHINGTON, Feb. 8.—(INS)—The army and air force moved swiftly Tuesday to reinforce defense of atomic plants with rockets, anti-aircraft guns and more deadly fighter planes.

The army partly confirmed a report that 22 anti-aircraft batteries are being sent to Oak Ridge, Tenn., Los Alamos, N. M., and Hanford, Wash.

The batteries will back up a system for "active" defense of east coast and atomic plants announced last week a few hours after President Truman ordered construction of the hydrogen bomb.

Use Navy Fighters
The air force, which plans to intercept all unidentified planes appearing within 100 miles of atomic plants or within 200 miles of the east coast, said it will immediately adopt the navy's new "Mighty Mouse" for its fighters.

The "Mighty Mouse" is a small, package, high-speed rocket which can be carried in quantity by fighters and will destroy any known plane with one direct hit. An air force spokesman said:

"This means that when you get a hit, they won't get away. It makes our air defense system just that much stronger."

The army spokesman emphasized that the defense moves are not connected with any specific international development.

Cap Is Found After Gun Stolen At Brink Robbery Is Discovered

BOSTON, Feb. 8.—(INS)—Discovery and identification of one of four guns stolen during the \$1,500,000 Brink's Express holdup three weeks ago was followed today by disclosure that a cap similar to those worn by the bandits also has been found.

The pistol, a .38 calibre Smith and Wesson special police model, was found Sunday morning in Somerville by Patrolman William Haefey behind a block of stores. Authorities said the chauffeur-style cap was found a few days after the robbery less than a quarter of a mile away, its visor torn off and lining removed.

Eight hours after the pistol was found the FBI claimed it. Somerville authorities, however, remained unaware that it was one of those stolen in the Brink's robbery until it was checked against an FBI circular.

The United States Navy plans to build the world's most powerful radio station in the state of Washington to provide all-weather communication with Navy units throughout the Pacific area.

Egyptian King Plans Marriage

LONDON, Feb. 8.—(INS)—Beautiful, 16-year-old Narriman Sadek and Kink Farouk of Egypt were reported today to be planning their wedding for February 11, Farouk's birthday.

The London Daily Express, in a special dispatch, said the ceremony uniting the 29-year-old king and the teen-age commoner will probably be a private one attended only by a few of the monarch's closest friends.

Farouk has been accused of "stealing" Narriman's affections from 27-year-old Zaki Hashem, an Egyptian employed by the United Nations.

Reports were that Hashem had been "advised" that his engagement was off because the king wanted to marry the brunette beauty himself.

Egypt denied the story and officially protested accounts of the story published in western newspapers.

Farouk, who divorced Queen Farida, said to be one of the world's most beautiful women, reportedly has ordered Narriman to live in the strictest seclusion while she receives daily lessons on court etiquette.

Authorize Grants For Research Field

WILMINGTON, Del., Feb. 8.—(INS)—For the second year the DuPont company has authorized \$100,000 for grants-in-aid to universities to "stock-pile" knowledge through the advancement of fundamental science.

The grants are for the 1950-51 academic year and are for unrestricted use in the field of fundamental chemical research.

They provide \$10,000 for each of 10 universities, all of which received similar awards when DuPont inaugurated the plan last year.

Dentists May Ease Pain 'With Air Drill'

CHICAGO, Feb. 8.—(INS)—The pain the dentist may give you is all a matter of degrees.

A University of Michigan dentist, Dr. Floyd A. Payton, says most molar miseries begin when the dentist spins his drill—and the temperature on the surface of the tooth skyrockets as much as 140 degrees. It's the heat—not the treatment—that hurts.

Dr. Payton told a midwinter meeting of the Chicago Dental society that new air-abrasives, which use jet-propelled streams of gas to excavate cavities, keep teeth cool—and comfortable.

New Drug Found For Tuberculosis

Drug Manufacturers Hear Of Tibione

CLEVELAND, Feb. 8.—(INS)—A new drug declared to have shown "very great usefulness" in the fight against tuberculosis was described to the American Drug Manufacturers' association in Cleveland.

The drug, tibione, was discussed by Dr. Charles E. Dutches, medical director of Schenley laboratories, who told of its use in many chronic tuberculosis cases.

He said the new drug appears destined to join streptomycin and P. A. S. (para amino salicylic acid) as the main drugs used to fight tuberculosis. "Still the leading cause of death for persons between 15 and 35."

Bayer Develops
ADMA members were told that tibione was discovered by Prof. Bernhard Domagk, who won the Nobel Prize in Medicine in 1939 for his work with sulfa drugs. It was developed by the Bayer Pharmaceutical laboratories in the Western Zone of Germany.

Dr. Dutches said medical experts believed tibione's outstanding characteristic is that its administration can be continued for extensive periods without the toxic reactions that occur when streptomycin is used for prolonged periods.

Has Shortcomings
However, he pointed out, the drug has neither the rapid or dramatic effect of streptomycin. Nor does it appear to be effective in two very serious, but relatively uncommon, forms of tuberculosis—miliary tuberculosis and tuberculous meningitis.

Dr. Dutches said tibione probably will not be available for general use until at least late this year. Clinical tests currently are being conducted in 24 Veterans Administration hospitals.

The American Automobile association has spent more than \$1,000,000 to promote teen-age driver training in schools.

CELEBRATING SILVER ANNIVERSARY

"My husband's parents will soon celebrate their twenty-fifth wedding anniversary. We plan to have an informal open house on that day and should like advice as to what to serve and some simple decorations. The hours will be from 7 to 10:30. What of invitations? When, after guests arrive, should we serve refreshments? I expect to have a large number of guests."

Answer: Serve a buffet supper, arranging your table and items as follows:

Stacks of plates and groups of cups, saucers and necessary silver should be attractively arranged on the table, which should be decorated with a floral centerpiece with candles flanking the flowers. A big feature of your table decorations should be a bridal cake. Your coffee service, as well as dishes of sandwiches or rolls, cold cuts and cheese should be set on the table before the arrival of your guests. Hot food, if any should not be served until the festivities are about to begin. Guests will help themselves unless you have servants to wait on them.

Have everything arranged before your guests' arrival so that you may have continuous service and that your guests may leave when they wish after at least a half hour's stay. Invite your friends by visiting card invitation, by writing short notes for this purpose.

After your guests have arrived and have had time to greet "the bride and groom" have a member of the family or a friend who is assisting escort them to the dining room where the buffet table is set. At an informal service, guests help themselves to refreshments with the help of someone—a friend or a member of the family stationed in the dining room for this purpose. Two of your best friends might pour—one at each end of the table.

Guests at a large open house usually come and leave in groups. They do not usually stay for the entire period.

Heart Campaign Is Commended

G.N.C.A. Head Urges Full Co-Operation

—New Castle News Photo
RICHARD E. RENTZ

In a statement today, Richard E. Rentz, president of the Greater New Castle Association, endorses the current campaign for funds by the Lawrence county chapter of the American Heart Association.

Said he, "this is a campaign which touches all of us, for no one knows when heart diseases will strike. Through research and preventive measures, the dreadful toll this killer takes can be reduced."

Backed By Experience
"The 1930 Heart Campaign, as you know, is being conducted on behalf of the American Heart Association and its nation-wide network of affiliates, including the Lawrence county chapter. This—your Heart Association—has the accumulated skill of years of experience. Its thinking, planning and activities reflect the closest teamwork between leading heart specialists and prominent representatives of business and the professions. Its goal is the prevention of disability and death from heart and circulatory disease. It is tirelessly seeking to reach that goal through a program of research, education and community service."

"Education, is essential. Until we can acquire new knowledge, we must make the best use of what we have. And we do already have a lot of valuable knowledge about the diagnosis and treatment of heart disease. To put this to work on the broadest possible scale requires, in the first place, providing for the post-graduate training of doctors, nurses and other professional groups concerned with the problem."

Make Knowledge Work
"In the second place, we must put our existing knowledge to work by giving the general public useful information about the heart diseases. In this way a great deal of needless suffering can be prevented. Very often people become frightened and unhappy because they have misinterpreted some physical symptom as a sign of heart disease. There is a widespread belief that a diagnosis of heart disease is equivalent to a death sentence. Facts are the best antidote for such unfounded, morbid fears. And, of particular importance, education means impressing on the general public the importance of regular health and heart check-ups."

The 1930 Heart Campaign offers all of us a practical opportunity to join the great, expanding, hopeful fight against heart disease which has been called the most serious health problem of our time. "The heart diseases are a challenge to us all."

STUCK MOTORISTS
AKRON, O.—Two million American motorists will get stuck in snow or mud this winter and next spring, predicts the B. F. Goodrich company, despite the increasingly widespread use of special mud-snow treads with traction buttons.

'Family Style' Eating At College

HUNTINGDON, Pa., Feb. 8.—(INS)—The two-platoon system of eating ended at Juniata college January 30.

Because of a resident enrollment beyond the capacity of its dining hall, the college has been forced to hold two servings for each male for "more than a decade," according to Miss Frances J. Mathias, college dietitian.

The opening of a \$110,000 dining hall addition doubled the present capacity.

The additional space will permit the seating of 464 students and will provide "family style" eating for all resident students at tables for eight.

The dining hall addition, equipped with the most modern kitchen and serving facilities, was dedicated by President Calvert N. Ellis at brief ceremonies at the first dinner Monday night, January 30.

Historic Medical Highlights—No. 4

300 YEAR OLD LIFESAVER

MODERN medicine looks back to 1628 for the discovery of lifesaving quinine. The place was Peru and the means of discovery was the application of an Indian remedy to the Countess of Cinchon, wife of the Spanish Viceroy. The Countess had malaria, and was treated with a potion refined from the bark of the Quinaquina tree. She recovered, returned to Spain and thus acquainted Europe and the world with the medical properties of this tree's bark. The tree is now known as the Cinchona—recalling the Countess and her service to mankind.

YOU MAY HAVE PIN-WORMS AND NOT KNOW IT!

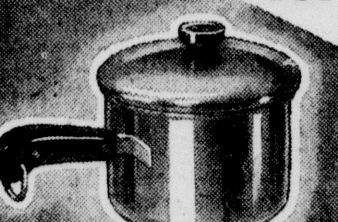

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... tiny parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Movies Drive To Abolish Tax

As a part of a national campaign to eliminate the 20 per cent amusement tax, New Castle motion picture exhibitors started their activity Tuesday, Feb. 7.

A meeting of all local exhibitors was held in the Regent Theatre which was addressed by Attorney Robert Ruskin of Pittsburgh.

"The tax is unfair to the masses who find in the movies, an economical of entertainment," said Mr. Ruskin.

Each local theatre will show trailers asking support in the campaign, and movie patrons will be asked to sign protest petitions.

It is hoped to send a protest of 20,000 signatures to Washington. In his request for reduction of excise taxes, President Truman did not mention the 20 per cent amusement tax which applies to all entertainment and sporting events. Before the war the tax was ten per cent.

Coal Situation May Develop Many State Ghost Towns

WASHINGTON, Feb. 8.—(INS)—Rep. Van Zandt (R) Pa., believes that Pennsylvanians are worried that many communities in his state "will become ghost towns unless coal regains its markets."

The congressman asserted that in the past ten months the bituminous coal industry lost about 100 million tons of its markets to competing fuels, representing 257 million dollars in coal miners' wages.

Van Zandt stated in a House speech that the loss of markets was due to work stoppages, the increasing cost of coal, conversion to substitute fuels, a government subsidization of other fuels, such as hydro-power furnished by the Tennessee Valley Authority. The GOP member declared:

"The loss of these earnings on the part of coal miners and railroads is so destructive that the future of our communities alarms all of us."

"Unless coal regains its markets Pennsylvania is destined to have many ghost towns. Thousands of coal miners, railroads, and employees of related industries face the destruction of their jobs and the means of earning a livelihood."

Miss Dinsmore Talks To Lions

Liberal Movement In United States Traced By Teacher

In an interesting talk, given before the Lions Club, at their noon luncheon meeting in The Castleton, Tuesday, Miss Sarah M. Dinsmore, member of the Senior high school faculty, traced the history of the liberal movement in this country.

This movement really started with the Revolutionary War, Miss Dinsmore stated, the revolution being a great liberal movement which gave men the freedom they had sought down through the ages.

Started With Jackson
Reforms, however, did not become a part of any government program until the term of Andrew Jackson, who was elected by the common people, she stated, and did not become a reality until Theodore Roosevelt, who had anti-trust legislation and other reform laws enacted.

Even though Lincoln was a conservative, the land grant act for colleges was passed, enabling states to establish universities on land donated by the government. Under Franklin D. Roosevelt, the liberal movement really blossomed forth, however, and in this period of liberalism, many states adopted welfare programs.

No Liberal Laws Repealed
While many liberal administrations were followed by conservative administrations, Miss Dinsmore stated that she has been unable to find a single instance of liberal laws being repealed and supplanted by laws of a more conservative nature. Even in England today, with an election impending, Winston Churchill has stated that he does not want to repeal existing liberal legislation, but to prevent it from going any further.

Miss Alice M. Sterling, city librarian was a guest of the club and was presented with the book, "The World's Biggest Doers," a history of the Lions Club and its activities for the library shelves.

Other guests included J. Howard Bruce, Jack M. French, and Russell B. Canan, all of New Castle. It was announced that the annual Valentine Dance of the club will take place in The Castleton next Wednesday evening, the program being in charge of the new members of the club, with George Wilson, as chairman. There will be no noon luncheon meeting next week because of this fact.

Souvenir Hawkers Thwarted By Burial Of White House Waste

WASHINGTON, Feb. 8.—(INS)—Souvenir hawkers who hope to make a good thing out of the razing of the White House interior are going to have to dig for their profits.

The commission in charge of the remodeling of the president's mansion decided to bury, but deep, that material from the building that can not be used for rebuilding purposes or can not be made into "useful" souvenirs, such as tables, fireplaces, etc., for public institutions.

The commission is ruled by a congressional injunction that none of the waste can be used for "commercial exploitation."

Greyhound Business Goes To The Dogs

PHILADELPHIA, Feb. 8.—(INS)—James L. Hance complained Tuesday that his greyhound-raising business went to the dogs because it was all meat and no profits.

Hance said he entered a dog-breeding partnership with Robert Faulds last July 1. He added that he spent \$1225 without getting any profits.

Hance told the court that when he asked Faulds to break up their partnership, Faulds gave him five of their nine dogs.

That might have seemed fair enough, Hance admitted, except that he couldn't sell the dogs because Faulds retained their papers. Furthermore, the greyhounds ate \$35 worth of food daily, he declared.

The court ordered attorneys for both men to sell the dogs and divide the proceeds.

Congress Helps To Ease Heartache Of California Pair

WASHINGTON, Feb. 8.—(INS)—The House took time out Tuesday from its usual business to help ease the heartache of an American couple whose only son met a tragic death while on a visit to Denmark.

It approved and sent to the Senate a bill authorizing the admission to the U. S. of a destitute Danish boy selected by the bereaved parents to take the place of their departed child.

Beneficiaries of the special legislation are Mr. and Mrs. Peter Leth-Nissen of San Mateo, Calif.

The House bill, sponsored by Rep. Anderson (R) Calif., would facilitate admission of the boy, Johnny Nielsen, three, by providing that for the purpose of immigration and naturalization he "shall be considered to be the natural-born son" of the California couple.

Many prominent citizens in Denmark and California interested themselves in the unusual case, which began when the Leth-Nissens took their only son, Peter, Jr., four and one-half, who was born in San Francisco, to visit Denmark last year.

Young Peter was bitten by a mad dog in Copenhagen. A hypodermic needle broke off while he was being given the Pasteur treatment and a minor operation was performed to extract it. The boy choked to death during the operation when ether was administered to him.

There are 28,000 public elementary schools in the United States.

Family Doctors Are Here To Stay

CHICAGO, Feb. 8.—(INS)—A Canadian physician told a Chicago medical conference the family doctor is here to stay despite predictions that general practice is "doomed" by medical specialization.

Dr. Myron W. Weaver, dean of the University of British Columbia's medical school, said a survey of recent graduates at the University of Minnesota Medical school showed that many students plan to enter general practice.

Risks Go With Census Taker Jobs

PHILADELPHIA, Feb. 8.—(INS)—So you wanna be a census taker. Before heeding this clarion call it might be well to remember that in 1940 a census taker, mistaken for a tax collector in the buck-shooting regions of West Virginia, wound up with holes in more places than his head.

Another asked a tavern owner a "personal" question and was promptly conked with a baseball bat.

But John L. Lennon, Philadelphia area supervisor for the Federal Bureau of the Census, says he doesn't anticipate "so much excitement in 1950."

Lennon, who will direct the nose

counting in Pennsylvania, Delaware and South Jersey beginning on April 1, says this year's quizmasters will all bear credentials and promptly show them when necessary.

HUNDRED YEARS OLD

LAKE ARIEL, Pa., Feb. 8.—(INS)—Mrs. Catherin Shaffer celebrated her 100th birthday Tuesday in her Lake Ariel home attended by her only surviving child, Mrs. Ida Klein, 80.

...yet some big business corporations pay little or NOTHING

Corporations engaged in commercial, profit-making business—such as Co-operatives, Foundations, even some colleges and universities—are permitted by law and outdated Treasury regulations to escape all or most of income taxes on business income and profits. Beaver Falls Trounces New Castle 49 To 31

Defeat Pushes Locals Into Section 3 Cellar

New Castle High basketball team now reposes in the Section Three cellar following a 49 to 31 thrashing handed them at Beaver Falls High floor by the aroused Tiegars.

It was sweet revenge for the 45 to 36 defeat given Beaver Falls by the "Canes" here earlier in the Section Three race. The defeat was No. 8 for the Thomas coached team, against one win, and leaves them stranded in the basement, just below Ellwood City which has won one and lost seven.

Still Miss Reed
Still showing the effects of losing their star performer Don Reed, the locals trailed 9 to 7 the first period and at the half 21 to 16. The third period it was 35 to 26 the Tigers leading. Beaver Falls really poured it on the final period, 14 to 5, to make it complete rout by 18 points.

Ray Lasko and Joe Marnelli paced the New Castle team in scoring with 11 and eight points respectively. Cartwright, Winters and Pavlinch led the Tigers in scoring. New Castle made 5 out of 10 fouls and the Tigers made 7 out of 15.

Alquippa Here Friday
New Castle is well on the way to its most disastrous Section Three season, being called on to meet Alquippa here Friday, playing at Sharon on Tuesday, February 14, and facing Ellwood here in the finale.

In the preliminary game the New Castle High junior varsity trimmed the Tiger Jayvees 41 to 34 with Carbone and Cook starring.

Borowicz Added To Booster Squad
Norb Borowicz has returned to the East Brook Booster roster and will see action tonight against the Hunk A. C. at East Brook high gym.

The former New Wilmington high star suffered a broken arm while playing for the Boosters last season. He has seen little action this year but plans to devote all of his game services for the rest of the year to the Booster quest.

Hank's take an 18-game winning streak into the fray and a season's record of 19 and 1.

The game pits one of the top-flight teams in the county. Hank's are comprised of some of the brightest younger stars in the area and the Boosters present a lineup of season veterans that are anxious to dominate the forthcoming tournament season.

East Brook Boosters meet a New Castle team in the 7:15 preliminary.

Rochester Royals and Syracuse Nats are two of the bitterest rivals in pro basketball.

Titans Down Grovers, 75 To 51

Late Rally Nets Easy Win; King Hoops 24 Points

A hard driving Westminster quintet poured 30 points through the basket in the final period last night to overwhelm Grove City 75-51 in the Grovers' home court.

It was the 14th win of the season for the Towering Titans against two college losses. The Blue and White took the lead in the first minute of play and led throughout the contest. The score was 46-35 at the end of the half.

McCullough On Boards
Pat King was big gun for the local quintet and high scorer for the contest with 24 points. Closely behind was Capt. Allen McCullough who tossed in 10 fouls and four field goals for 18 points. Set shot artist Bruce Wagner, who leads the Titans in the scoring division, tossed in 10 points.

Going into the final period the locals were being pressed hard by a Grove City quintet that wouldn't play dead. Wagner came through with two quick field goals as the period opened. Two fielders and a foul by King followed. The Grovers were never in the ball game after that.

McCullough, as usual, dominated team play in control of the backboard. He missed only two free tosses out of 12 chances and played a brilliant passing game.

Battle Bethany
Saturday the Titans journey into West Virginia where they engage the Bethany Bisons in a return match. The Blue and White whipped the Bethany team with ease on the New Wilmington court earlier in the season, but expect tougher opposition at Bethany.

Royals Defeat Bombers, 90-84

The Rochester Royals continue to hang on tenaciously in the wake of the Minneapolis Lakers, who are setting the pace in the Central Division of the National Basketball Association.

Last night the second-place Royals advanced to within half a game of the idle Lakers by beating St. Louis, 90 to 84.

Indians Win
In the Western Division it was a different story as the leading Indianapolis Olympians defeated Washington, 88 to 81, and increased their lead over the second-place Anderson Packers, who were idle, to two full games.

In other games, Chicago outscored Boston, 91 to 86, and Fort Wayne walloped Denver's Nuggets 83 to 67. The hapless Nuggets now have lost 39 games, more than any other team in the circuit.

Ted Williams Signs Contract With Red Sox Calling For Around \$125,000

By AL BLACKMAN
(International News Service Staff Writer)
BOSTON, Feb. 8.—Ted Williams signed his 1950 Boston Red Sox contract Tuesday at a reported figure of around \$125,000.

Ted told newsmen only that the contract was "better than last year's."

If Williams is in fact getting more than \$100,000 he becomes the highest paid player in baseball history. Joe DiMaggio reportedly signed up for 1950 with the Yankees for an even \$100,000.

Neither Williams nor any official of the Boston club would reveal what Williams signed for.

Ted received an estimated \$90,000 last year.

The big slugger, who won the American League's Most Valuable Player Award for his 1949 play, was in high good humor while he and Red Sox General Manager Joe Cronin posed for cameramen.

Six-Team Race
Ted predicted a six-team race in the American League for the coming season and said:

"This is the best contract I have had in my life. I hope sincerely that I have a year which will make me worthy of the contract."

Owner Tom Yawkey of the Red Sox has been known to be exceptionally generous where Ted is concerned.

Franklin Defeats Washington, 30-29; Farrell, Union Lose

Benjamin Franklin junior high school came from behind Tuesday afternoon to defeat its cross-town rival George Washington, 30-29 in an important Junior WPAL game.

The Little Presidents held a 29-27 lead with eight seconds remaining to play when Norman Cook, Franklin forward, was awarded a free throw. Cook made the shot good to bring the score to 29-23 and seconds later took a pass and made a one handed side shot to win the game for the Patriots 30-29.

Washington led all the way until those final seconds and held a 22-10 lead at half-time. Cook and Roth led the Patriots in scoring with 10 points apiece. Strehler led Washington with eight.

Sharon Tops Farrell
In other games throughout the section, Butler trounced Union 42-16 and Sharon beat Farrell 25-22.

In a non-league game Mahoning defeated Ellwood City 19-16.

Sharon's victory over Farrell tied the two teams up for the section lead and left Franklin only one half game behind both of them.

Butler had little trouble with the Little Scotties of Union and substituted freely. Myers was leading scorer for Union with eight points. Whann had nine for the winners.

Mahoning evened things up in its two-game series with Ellwood City at Ellwood. Earlier in the season, Ellwood dumped the seventh warders 37-36. Don Henderson led Mahoning in scoring with eight points. Brown, Toriello and Gardner all scored four for the Little Wolverines.

'Buff' Donelli Seeks Pitt Job

PITTSBURGH, Feb. 8.—(INS)—Aldo T. Donelli, head football coach at Boston University, was listed among the candidates for the football coaching job at the University of Pittsburgh today.

Athletic Director Tom Hamilton, who has been interviewing applicants since Walter (Mike) Milligan left last Jan. 27, adjutted Donelli talked to him about the job.

Hamilton said Donelli told him "a group of his Pittsburgh friends urged" him to inquire. Observers don't think Donelli will be given much consideration.

Wampum Triumphs Over Union, 68-48

Wampum rolled over Union 68-48 Tuesday night on the strength of a third quarter surge at the Union high floor.

Up until the third stanza the Scotties were pushing the league leading Indians hard and were only behind 34-28 at half-time. Wampum poured it on in the third period, however, and scored 20 points to six for Union.

Don Schena and Caesar Craine led the Indians in scoring with 18 and 16 points respectively. Arsen Root had his biggest night of the season for the Scotties with 18 points—most of them one handed shots from outside the foul circle.

Pete Barber did a good job under the buckets for Union and was instrumental in the first half scoring.

In the preliminary game the Wampum JV's won 62-55. Butchelli was high for Wampum with 15. Crisswell had 20 for Union.

Ed Barrow converted Babe Ruth from a great left-handed pitcher into greater slugger by moving him from the mound to the outfield, and through the years played a part in the drama that centered around the most colorful player of them all.

Walcott-Johnson Battle Tonight

PHILADELPHIA, Feb. 8.—(INS)—Jersey Joe Walcott, who admits to 36 years, ruled a two to one favorite today to beat 22-year-old Harold Johnson in tonight's 10-round bout at the Philadelphia arena.

Walcott must win the fight to stay in the front ranks of the heavyweights. Johnson, on the other hand, will be gunning for a win to strengthen his bid for a crack at Ezzard Charles' NBA title.

Walcott Heaviest
The vast difference in the fighters' ages was highlighted by the recent disclosure that Jersey Joe once fought Johnson's father.

Walcott, whose three bids for the title have ended in defeat, expects to outweigh "muscle man" Johnson by 15 pounds. He will embark after tonight's fight.

Johnson has come up fast, winning 28 of his 29 bouts. His only loss was to Archie Moore.

Mt. Jackson Whips New Wilmington

Mt. Jackson made a clean sweep of its two-game series with New Wilmington last night when it took the Greyhounds 39-34 in a rough and tumble game at New Wilmington.

The Mounties jumped off to an early lead and held it until early in the fourth frame when the Greyhounds tied it up at 30-30. After that, however, Mt. Jackson jumped back into the lead with a fielder by Mack and two more by Kerr. With three minutes left the Mounties led 38-31.

Pat Kerr started the Mounties off in the first frame when he put in three buckets in quick succession—two of them from interception of New Wilmington passes. After that first flurry Kerr's shooting was off but he still managed to lead in scoring with 17 points.

Pressing Defense
Mt. Jackson used a pressing zone defense and had the Greyhounds bottled up for the biggest part of the game. Tom Hutchinson never got what could be called a clean shot at the bucket but still managed to set in 15 points.

The entire Mt. Jackson team played a fine game with Kiehl Macek, Bob McKinley and Pat Kerr leading the way.

Hutchinson, Walt McGinnis and Dave Boyd played good games for the Greyhounds, who missed the services of Bob McKee at center due to the mumps.

Sophomore Lou Ringer replaced McKee in the lineup but lacked the scoring punch of the regular center.

The New Wilmington JV's won a close one 41-40 in the preliminary game.

Suni Warcloud, Indian, having been injured in a mat match, he will be replaced Friday night, by Irish Jack Kennedy against Dutch Howlett, Adonis of the mat. They are to meet in a 60-minutes limit, or one fall exhibition in The Arena. Kennedy is a nephew of the late motion picture star, Edgar Kennedy.

In the Australian tag event, Skagway Clements and Dennis Clary oppose Flash Clifford and Pierre LaBelle. The first exhibition will be a 30-minutes affair, or one fall between Pancho Valentino and Jim Lewis.

George Mikan played the last three games of the 1948-49 pro cage schedule with a broken wrist.

Must Take Action
Anyone wishing to buy up to 100 shares may do so tonight by calling at the Hotel New Penn after 7:30 o'clock.

Action on a playing manager must come very shortly. The league will open the first week in May. It was indicated. Saints Big Five Tops Hillsville

The Saints Big 5 notched another victory last night by defeating the Hillsville Holy Name team 42 to 38. Hillsville took the lead a few seconds after the game got under way and held it throughout the first stanza but the Saints came back strong in the second to outscore them 12 to 2. The remainder of the game was close but Hillsville never regained the lead.

Sferla led the Saints with 10 points; Jones, the Hillsville center took all scoring honors with 19 points.

In the preliminary the St. Mary's grade school team lost their first league game to St. Joseph's 32-20. Tonight the Saints will travel to Ohio to meet the Vasko 5 A's. Players are requested to meet at the Catholic Center at 6:45 to make the trip.

US ROYAL TIRES

HERE and THERE IN 'SPORTS LAND'

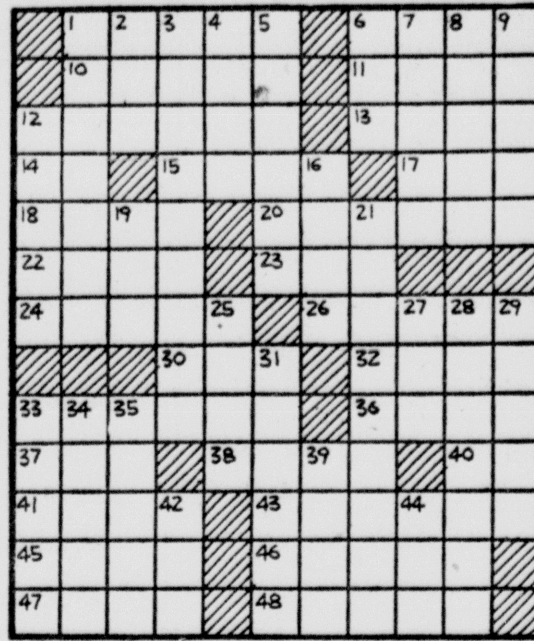

ONE BID OF \$27,000, having been received by the city for Sylvan Heights Golf course, Here & There believes the five city fathers should give their fullest consideration to the proposal to dispose of the municipal course. The bid covered the ground, buildings and equipment. The plot formerly was owned by the Lawrence County Poor district, and later became by virtue of an Act of Assembly, the City Poor district. Ten acres of the course is leased by the city from the county. Determined to "feel the pulse of the public," the council put the course "up for sale." Some citizens favor its disposal, others do not. Council's action resulted from criticism which said that the operation was a losing venture. However, it is considered as part of the city's recreation program, and Here & There doubts if any recreation feature in the nation shows a profit, when operated municipally. Attorney Frank Moretti, representative of golfers asked council to give deep consideration to the recreational value of the course. There are certain benefits derived from recreation which cannot be measured in dollars and cents, hence council should study the proposition from all angles before taking final action.

Redskins Sign Frank Spaniel

WASHINGTON, Feb. 8.—(INS)—The Washington Redskins announced Tuesday the signing of Frank Spaniel, Notre Dame half-back, to a contract for the 1950 professional football season.

Redskins Coach Herman Ball conferred in Washington Monday with the 185-pound backfield star and Spaniel then returned to his home in Vandergrift, Pa., from where he mailed his signed contract to the Redskins.

Spaniel, fifth choice of the Redskins in the recent National-American League draft of college players, is the first member of Notre Dame's 1949 national champion eleven to sign a pro football contract.

Phillies Sign Two Outfielders

PHILADELPHIA, Feb. 8.—(INS)—Two hard-hitting, young outfielders joined the Philadelphia Phillies fold today bringing the club's number of signed players to 17.

A Phillies' spokesman announced that flycatchers Johnny Blatnick and Eddie Sanicki have agreed to terms. No salary was mentioned. After batting .269, driving in 104 runs and socking 33 homers in the minors last year, Sanicki joined the parent club near the end of the season and had three hits, all homers, in 13 tries.
